# Online Balloting Q & A

## Why go digital?

- Online balloting allows for more efficient tabulation and results distribution.
- Online balloting will result in less tabulation errors and virtually no lost ballots.

## Why two systems?

- Submittable is designed to be used to judge and score contests.
- By entering your entries in Submittable you are creating the ballot that will be assigned to live judges at festival.

## What happens if I don't enter my kids in Submittable?

- If your students are not entered into Submittable, they will not have a ballot with which to be judged.
- They will not be able to compete at festival.
- They will not get a refund on their registration cost.

# Thespy Registration

## Festival Registration

1

- Register your students in the festival registration system.
- All you will need for registration is what events each student will be doing. You DO NOT NEED titles yet.
- Remember EACH student competing in a Thespy needs to be registered for that Thespy.
- Thespy entries must be in the registration system by the close of registration on October 18.

**DUE** Oct. 18

## Confirm Performance Titles

2

- You will have from October 18 through October 28th to confirm performance titles and short film titles.
- Be sure to check the eligibility of performance Thespy titles to make sure they are eligible for competition.

## Enter Each Thespy into Submittable

3

- Each Thespy entry must be entered into Submittable.
- Directors should enter their students. If directors do not enter their students, they will not have access to their results and feedback.
- Duet and group entries should only be entered once. The entry will ask for all of the competitor's names.
- You can find all of the links to the different contests HERE.

**DUE** Oct. 28

## Submit Short Film and Playwriting Entries

4

- Short film, Playwriting, and Musicalworks should all be submitted in Submittable by October 28th.
- Entries should be submitted by Directors.

**DUE** Oct. 28

# Leadership, Texas Challenges, and Other Applications
