

Tech Playland LED Station

You are the Designer!
Learning to manipulate lights will give you the opportunity to support your director's emotional thru line.

RULES

- This is a team event.
- Familiarize yourself with LED Color mixing.
- Bring up lights on the console. Play.
- Use the console to access color function in the LED system.
- The goal is to learn how to manipulate color and change the feeling of the show thru lighting.

How to Practice

- 12- LED Lights- color mixing
- Dimmer & Board
- Hang pvc setup
- 5-10 Scenes or colors to create (on paper or card)
- 5- Colored Paper to see how changing LED colors effects the color (m&m experiement idea- taped on all or floor)
