

# Tech Playland Sew a Button

**Explore making clothes!!**

Learning sewing today makes  
the fashion designers of  
tomorrow!!!

## **RULES**

- This is a one person event. All can practice, but only one team member competes.
- It is a timed event.
- If this event is chosen for the Tech Relay, the best time will be recognized at Closing Ceremonies.
- There will be a quick session where the table leader will teach you how to correctly sew a button. Please pay attention.
- Sit at the table and collect your supplies.
- Pass needle thru and back the fabric. Tie off thread.
- Pass thru a second time and thru a button.
- Repeat last step up to 4 times.
- End up on opposite side of button and tie off thread to secure button.

## **How to Practice**

Two 6' tables to assemble participants. One pager from the handbook is printed and taped to the table. Around the combined table, you need to have 6 to 10 chairs. Magnetic bases for needles are set in four places around the center of the table. Tubs of buttons and fabric are set out around the table as well. Think quilting bee set up with students sewing buttons all around the table. Teacher is set at the head of the table and threads most of the needles while instructing students on how to attach buttons to fabric.

Needs: All sewing notions, two tables and 10 chairs.
