Bottom Line: Keep it Simple, succinct, well-formatted, and easy to read. Colleges are aware that you're in high school, please don't feel the need to embellish. Colleges have accepted plenty of students who have little to no experience. Your résumé should give them a sense of who you are and how you've been cast, but it's by no means the final arbiter. This is also an opportunity to let us know of other activities you've participated in: community service, sports, and more extracurriculars. They are looking for students who have interests outside the theater as well. Also, this is to serve as a template. If you use this format, please remove the *(RED)* parts as they are meant to be instructional. This is also just one type of template, if you find one you prefer, use it, but please, keep it to one page. Keep the font simple to read, and keep the type between 10 -12 pt.
